What is paintball?

Paintball is the fastest growing sport in the world, and for good reason, it is so much fun! It is a game that requires teamwork, good communication skills and most important of all, a sense of adventure.

A game of paintball usually lasts anywhere from five to ten minutes. There are endless combinations of games that can be played on any day, with your imagination being the only limit.

In a game of paintball, groups are divided into two teams and are set different objectives which require everybody working together towards a common goal.

In the game of paintball, players are 'eliminated' or 'tagged' from the game when they are hit with a paintball that leaves a mark. This paint mark can be easily wiped off at the end of the game.

Game Modes

You will play many different types of game modes while playing at Action Paintball. Each game runs for around 10mins. The first 7-8 minutes, you will have Respawn available, meaning if you get hit, return to your starting position and immediately re-enter the game. The last few minutes are Elimination, meaning if you are hit, move to the side and wait for the game to finish.

Some of the more common Game Modes you will play are:

Team Deathmatch

Classic Red vs Blue team deathmatch. Eliminate all players on the opposing team to win the match.

Capture the Flag

Classic CTF. Retrieve the flag from the enemy base and return it to yours to score a point. Highest score when the time expires is the winner of the match.

Assault (Attack & Defend)

One team is tasked with defending an objective, while the other team attacks. Once time is up or the attackers are successful, the roles are reversed. The winner is the team which successfully attacks the objective in the shortest time.

Domination

Keep your flag raised at the top of the post by the end of the game to win. Unlimited respawn for both teams.

Survivors vs. Zombies

The team of Survivors endure waves of zombie attacks. Zombies have unlimited respawn. If a survivor is hit, they must immediately join the Zombie team. When time is up, the roles are reversed. Winners are the survivors who hold out longest.

Protect the President

Terrorist team takes up positions on the field. The president must GET TO THE CHOPPAH across the field with the help of their bodyguards. The President can only be eliminated by headshot. Winning team evacuates the president quickest.
